OBJECTIVE: Member of the 2009-2010 Nominating Committee

I am extremely proud to be a member of this great organization and optimistic for its future. I want to continue to be part of providing the best support to all members and believe I can make a difference. I believe every member is important and entitled to enjoy everything that the Club has to offer. I listen to views and opinions and am for change, positive change and needed change to move our Club forward. At National/Special Events/Region/Provincial & State rallies in Region 2, I have made several improvements regarding parking visiting intl & region officers with the members, reserved front row seating only for opening ceremonies, etc and trying to make rallies more fun for members.
